Auction software Social commerce Commercial communities Wallet Mobile commerce Ticketing Customer service Customer support live Support Software E-procurement Purchase-to-pay Super-appsvte Reading an e-book An ebook (short for e-book), also known as an e-book or eBook, is a book publication made available in digital form, of text,
images or both, readable on the flat screen of computers or other electronic devices[1]. Although sometimes defined as "an electronic version of a printed book",[2] some e-books exist without a printed equivalent. E-books can be read on dedicated e-reading devices, but also on any computer device that has a controllable viewing screen, including
desktop computers, notebooks, tablets and smartphones. In the 2000s there was a trend of print and e-book sales to the Internet,[citation needed] where readers buy paper books and traditional e-books from websites that use e-commerce systems. With printed books, readers increasingly look for images of book covers on publisher or bookstore
websites and select and order titles online; the paper books are then delivered to the reader by mail or other delivery service. With eBooks, users can browse titles online, and when they select and request titles, they can be submitted online or downloaded[3]. In the early 2010s, e-books began to surpass hardcover by overall publication numbers in
the US[4]. The main reasons for People buying electrical books are possibly lower prices, greater comfort (as they can buy at home or moving with motivable devices) and a one ;otnemivom uo o£Ã§Ãa ralumis arap o£Ã§Ãautnop e siamron sarvalap riutitsbus arap uaetnamtroP ed solobmÃs ed oremºÃn ednarg mu odnizudortni :)"arvalap ad atnergnas

,ogitra mu mE Engelbart and Andries van Dam (1960) alternatively, some historians consider electrical books to It came to fruition in the 1960s with the NLS project led by Douglas Engelbart at the Stanford Research Institute (SRI), and the Hypertext Editing System and FRESS projects led by Andries van Dam at Brown University.[15][16][17]
FRESS documents ran on IBM mainframes and were structure-oriented and not line-oriented; they have been dynamically formatted for different users, display hardware, window sizes and so on, as well as having automated content tables, indexes and so on. All of these systems also provide extensive hyperlinks, graphics, and other features. Van Dam
A© generally thought to have coined the term "electronic book",[18][19] and was established enough to use in an article label in 1985[20]. FRESS has been used to read extensive primary texts online, as well as to annotate µ and discuss µ online in various courses, including English Poetry and Biochemistry. Brown's college made extensive use of
FRESS; for example, philosopher Roderick Chisholm ³ it to produce several of his books. Thus, in the Prefecture of Person and Object (1979), he writes: "The book would not have been completed without the File Retrieval and Editing System creation time...".[21] Brown University's work on electronic book systems continued for many years, including
US Navy-funded projects for electronic repair manuals;[22] a large-scale hypermedia distribution system known as InterMedia;[23] a spin-off company Electronic Book Technologies that built DynaText, the first electronic reading system Single based on SGML; and the extensive work of the Scholarly Technology Group on the Open eBook standard.
Michael S. Hart left) and Gregory Newby (A ³ right) from Project Gutenberg, at the Hackers on Planet Earth Conference (HOPE), 2006 Michael S. Hart (1971) Despite the extensive previous history, several publications µ report Michael S. Hart as the inventor of the e-book.[24][25][26] Mainframe Xerox Sigma V operators at the University of Illinois
gave Hart a long computer time. Seeking a one From this feature, he created his first electron document by typing the United States independent declaration on a simple text computer [27]. Hart planned to create documents using simple text to make them as fancil as possible to download and view on devices. Apion Hart first adapted to the United
States Independent Declaration in an electron document in 1971, the Gutenberg Project was launched to create more text electrical stamps, especially books [27]. Another initial implementation of the ebook was the desktop protist for a proposed notebook, the Dynabook, in the 1970s in Parc: a portable personal computer for general use capable of
displaying reading books [28] In 1980, the United States Department of Defense began the development of a portionable electrical delivery device for information on the so -called Peam Project, Portable Electronic Aid for Mainatenance project. Detailed specifications were completed in 1981/82, and the development of protainters began with Texas
Instruments in the same year. Four proto³Types were produced and delivered for testing in 1986, and tests were completed in 1987. The final suuman report was produced in 1989 by the US Examination Institute for Behavioral and Social Sciences by Robert Wisher and J. Peter Kincaid [29]. A patent request for the PEAM device, [30] entitled "Aprat
For Delivery Procedural Type Instructions", was presented by Texas Instruments on December 4, 1985, listing John K. Harkins and Stephen H. Morriss as inventors. The first portable book, the "Personal Electronic Aid to Maintenance" of the US Department of Defense in 1992, Sony Data Discman, a reader of e-book books that could read ebooks that
They were stored on CDs. One of the electrical posts that could be used on Data Discman was called The Library of the Initial electronic books were usually written for specialist fields and a limited audience, to be read only by small and Dina Sarrohtua Arov Yao Sa Tamarov KooBeNepO Eht Polriwot Demrumoitrosnc a,s0991 Etal Eht I .hcaorppa IET

worked much more successful to the Plastic Libraries [38] The number of library electronics distributors and emptically models continued to increase over the next years. . From 2005 to 2008, libraries registered a 60% growth e-book collections[39] In 2010, a study by the American Library Association[40] found that 66% of public libraries in the US
were offering e-books,[41] and a large movement in the library industry began to seriously examine the issues surrounding e-book lending, recognizing a "tipping point" when eBook technology would become widely established[42] Public library content can be downloaded to e-readers using application software like Overdrive and Hoopla[43] The US
National Library of Medicine has for many years provided PubMed with a comprehensive bibliography of medical literature. In early 2000, the NLM created the PubMed Central Repository, which stores full electronic text versions of many medical journal articles and books through cooperation with scholars and publishers in the field. Pubmed
Central now also provides archiving and access to over 4.1 million articles, maintained in a standard XML format known as the Journal Article Tag Suite (or "JATS"). Despite the widespread adoption of e-books, some publishers and authors were not supportive of the concept of electronic publishing, citing issues with user demand, copyright
infringement, and challenges with proprietary devices and systems[44] In a survey of interlibrary loan (ILL) librarians, it was found that 92% of libraries had eBooks in their collections and that 27% of these libraries had negotiated ILL rights for some of their eBooks. This survey found significant barriers to interlibrary loan for eBooks[45] Patent-
guided acquisition (PDA) has been available for several years in public libraries, allowing vendors to streamline the acquisition process by offering to match the selection profile of the library's catalog is then populated with records of all e-books that match the profile[46] The decision to purchase the title is left to the patrons, although the library can

rof stelbat naht rettb era sredaer-e ynam, stelbat Called the EnciclopÃ©dia MecÃ¢nica, in Galicia, Spain. Roberto Busa begins planning the Thomisticus Index. [11] c. 1963 Douglas Engelbart starts NLS projects (and later augmented). [15] c. 1965 Andries Van Dam starts the HES (and later Fress) projects, with assistance from Ted Nelson, to develop
and use electronic books for humanities and pedagogy. [16] [17] 1971 Michael S. Hart types the U.S. Declaration of Independence into a computer to create the first e-book available on the Internet and launches Project Gutenberg to create electronic copies of more books. [27] c. 1979 Roberto Busa finishes the Ãndice Thomisticus, a complete
lematization of the 56 printed volumes of St. Thomas Aquinas and some related authors. [58] 1980 and 1990 1986 Judy Malloy writes and programs the first online hypertext fiction, Uncle Roger, with links that take the narrative in different directions depending on the reader's choice. [59] 1989 Franklin Computer releases an electronic edition of the
Bible that can only be read with a stand-alone device. [60] 1990 Eastgate Systems publishes the first hypertext fiction released on diskette, Late, a story, by Michael Joyce. [61] Electronic Book Technologies releases Dynatext, the first SGML-based system for delivering large-scale books such as aircraft technical manuals. It was later tested on a US
aircraft carrier as a replacement for paper manuals. [Citation needed] Sony launches the Data Discman E-Book Player. [62] [63] 1991 The Voyager Company develops expanded books, which are books on CD-ROM in digital form. [64] 1992 DD-8 Discman F. Crugnola and I. Rigamonti design and create the first e-reader, called Incipit, as a thesis
project at the Polytechnic University of Milan. [65] [66] Apple begins using its Docviewer format [67] "to distribute documentation to developers in electronic form," [68] which effectively meant on Macintosh books. 1993 me me euq ,eteuqsid ed socsid siod me o£Ãirtifna ecnamor ues acilbup semaJ The time was called "the world's first electronic
novel"; A copy is stored at the Science Museum. [69] Hugo Award and Nebula Award Nomeu Works are included on a CD-ROM by Brad Templeton. [70] Launch of Bibliobytes, a site to get e-books, for free and for sale on the Internet. [71] Paul Baim releases the hypercard ebook stack 1.0 which allows the user to easily convert any text file into a
hypercard-based pay book. [1994 C&M Online is founded in Raleigh, North Carolina and begins publishing e-books under its own imprint, Boson Books; Authors include Fred Chappell, Kelly Cherry, Leon Katz, Richard Popkin, and Robert Rodman. More than two dozen volumes from within the Macintosh are published [72] together on a single CD-
ROM in the Apple Docviewer format. Apple subsequently switches to using Adobe Acrobat. [73] The popular format for publishing changes from plain text eBooks to HTML. The 1995 on -line poet, Alexis Kirke, discusses the need for wireless Internet electronic paper readers in his article "The Emuse". [74] 1996 Project Gutenberg reaches 1,000 titles.
[75] Joseph Jacobson works at MIT to create electronic ink, a low-cost, high-contrast, read/write/delete medium for displaying e-books. [76] 1997 E Ink Corporation is co-founded by MIT graduates J.D. Albert, Barrett Comiskey, MIT Professor Joseph Jacobson, as well as Jeremy Rubin and Russ Wilcox to create an electronic printing technology. [77]
This technology is later used in the Sony Reader, Barnes & Noble Nook and Amazon Kindle displays. 1998 Bookeen's CyBook Gen1, Nuvomedia, launches the first handheld e-reader, The Rocket Ebook. [78] SoftBook launches its softbook reader. This e-reader, with expandable storage, can store up to 100,000 pages of content, including text, graphics,
and images. [79] CyBook is sold and manufactured at first by Cytale (1998 - 2003) and later by 1999 NIST releases the XML-based open e-book format to the public domain; most future electronic book formats are derived from Trleflek or coobb-Beox for Rocon , Vicux 5002, 502 mlome) 500 mmeme) 400 50) 40-4 -x daya Sal; Enalu Plassary of the

conditional access with possible loss of access to the e-book Due to digital rights copyright issues, the provider's business failing or possibly if the user's credit card expired.[183] Market share United States According to the Association of American Publishers 2018 annual report, ebooks accounted for 12.4% of the total trade revenue.[184] Publishers
of books in all formats made $22.6 billion in print form and $2.04 billion in e-books, according to the Association of American Publishers¢ÃÂÂ annual report 2019.[185] Canada Market share of e-readers in Canada by Ipsos Reid as of January 2012[186] Sellers Percent Kobo 46.0% Amazon 24.0% Sony 18.0% Others 12.0% Spain In 2013, Carrenho
estimates that e-books would have a 15% market share in Spain in 2015.[187] UK According to Nielsen Book Research, e-book share went up from 20% to 33% between 2012 and 2014, but down to 29% in the first quarter of 2015. Amazon-published and self-published titles accounted for 17 million of those books (worth Ã£Â58m) in 2014,
representing 5% of the overall book market and 15% of the digital market. The volume and value sales, although similar to 2013, had seen a 70% increase since 2012.[188] Germany The Wischenbart Report 2015 estimates the e-book market share to be 4.3%.[189] Brazil The Brazilian e-book market is only emerging. Brazilians are technology savvy,
and that attitude is shared by the government.[189] In 2013, around 2.5% of all trade titles sold were in digital format. This was a 400% growth over 2012 when only 0.5% of trade titles were digital. In 2014, the growth was slower, and Brazil had 3.5% of its trade titles being sold as e-books.[189] China The Wischenbart Report 2015 estimates the e-
book market share to be around 1%.[189] Public domain books Main article: Public domain Public domain books are those whose copyrights have expired, meaning they can be copied, edited, and sold freely without restrictions.[190] Many of these books can be downloaded for free from websites like the Internet Archive, in formats that many e-
readers support, such as TXT, and EPUB. Books in other formats can be converted to an electronic reader-friendly format ³ using electronic book writing software, e³g. Caliber. Blook Cell phone novel Digital Library Braille e-book Electronic publication List of digital library projects Networked book TeX and LaTeX Web fiction Braille translator Perkins
